

NOTES

- Names with lines through them = Let's permanently remove. These are players who have graduated or don't fit our profiles. We want to make sure they don't make their way in on future scrapes.
- Already on master = These are names who were on the original boards we shared. They've been on our lists for a while and likely already have Instagram handles and other noted details.
- X = Indicates that the Instagram handles were wrong
- NOT FOUND = We couldn't find the correct handle. If the player name isn't crossed out, we'll want to keep the player and note "NOT FOUND" for the Instagram handle.
- Add = Add the player to the master board along with any details we've noted. Hopefully future scrapes can bring in the rest of their info.
- Broken = These are the correct Instagram handles for the players, but they aren't currently working. Let's leave these attached to the player for now.
